#### The Washington Death with Dignity Act

The act allows terminally-ill adults to request life-ending medication from physicians. Patients must be Washington State residents, have less than six months to live, be capable of making an informed decision, and have the ability to self-administer the prescribed medication.

We can offer you:

- Information and guidance through the process.
- Instructions for talking to your doctors about Death with Dignity.
- Assistance locating participating physicians and pharmacists for clients.
- Personal support and presence at the time of using Death with Dignity.

## HOW YOU CAN HELP END OF LIFE WASHINGTON

When you make a donation or planned gift to End of Life Washington, what matters to you carries on in the service of others.

With your help, End of Life Washington educates the public, builds partnerships with health care providers, advocates for patients' rights, and provides services and resources — free of charge — to incurably and terminally ill people and their loved ones.

We are the only organization in the State of Washington that upholds the rights of qualified terminally ill adults to use Washington's Death with Dignity Act.

End of Life Washington depends almost entirely on gifts from people like you. Your tax-deductible gift will be used to continue EOLWA's profound sense of care, commitment to reducing suffering at the end of life, and dedicated statewide community of volunteers.
